Stakeholder Communication • Customer Service • Problem-Solving • Time Management • Multi-Client Coordination • Adaptability • Team Collaboration • Technical Documentation

PROFESSIONAL EXPERIENCE

Desktop Support Engineer (Enterprise Contractor) | *Total IT Global* Jul 2025 – Present
Deployed across multiple enterprise client sites in Sydney, providing on-site IT field support and end-user computing services.

Client: JLL | Sydney 2026 – Present

- Deliver on-site desktop and end-user computing support across JLL's Sydney operations, ensuring high availability of hardware, software, and network services.
- Administer Privileged Access Management (PAM) requests using CyberArk, including provisioning, revoking, and auditing privileged credentials in line with security and compliance policy.
- Manage incident and service request resolution via ITSM tooling, maintaining SLA compliance and detailed handover documentation.
- Maintained accurate lifecycle records for laptops, monitors, docks, and peripherals across Asset DNA.
- Support Microsoft 365, Active Directory, and Intune-managed devices for end users across the site.

Client: CHEP / Brambles | Macquarie Park, Sydney Jul 2025 – Dec 2025

- Delivered comprehensive desktop support for 100+ end users, including hardware provisioning, device replacement, and secure decommissioning.
- Performed physical server moves and enterprise infrastructure relocation as part of a large-scale hardware refresh project.
- Assisted with Windows Autopilot and Microsoft Intune device enrolment, provisioning, and configuration.
- Administered privileged access requests via PAM360 and maintained accurate lifecycle records for laptops, monitors, docks, and peripherals across ServiceNow CMDB and Asset DNA.
- Provided end-user onboarding support including profile setup, application access, and VPN connectivity troubleshooting.
- Logged and managed incidents via ServiceNow; maintained detailed handover documentation and coordinated courier dispatch.

Additional Enterprise Client Assignments | Sydney

2026

Diageo | Corteva Agriscience | Perrigo | AMD | Thomson Reuters

- Delivered Level 1/2 on-site support across Windows 10/11 and Microsoft 365 environments.
- Completed device provisioning, OS deployment, Intune enrolment, and IMACD activities.
- Supported Active Directory/Entra ID access, MFA, VPN connectivity, and user onboarding.
- Troubleshoot hardware, applications, peripherals, meeting-room equipment, and Teams Rooms.
- Logged, prioritised, and resolved incidents through ServiceNow in accordance with SLA requirements.
- Produced technical documentation and supported knowledge-transfer activities during client transitions.

IT Support Specialist | *Cloud Stream* | Sydney

Jan 2023 – Jun 2025

- Provided Level 1/2 support for hardware, software, account access, Microsoft 365, and network connectivity issues.
- Administered Active Directory accounts, security groups, password resets, and access permissions.
- Deployed applications and managed Windows endpoints through Microsoft Intune.
- Supported Group Policy, standard operating environment compliance, and endpoint security requirements.
- Documented incidents, troubleshooting actions, and resolutions through ITSM systems.
- Assisted with network upgrades, device deployments, and integration of new systems into existing environments.
