ITSM & Ticketing:	ServiceNow, ConnectWise, Incident Management, SLA Management, Change Management, ITIL Framework
Remote Support:	TeamViewer, AnyDesk, Bomgar, Microsoft Teams, Zoom
AV & Conferencing:	Teams Rooms, Projector & Conferencing System Troubleshooting, Meeting Room Support

PROFESSIONAL EXPERIENCE

Desktop Support Engineer (Enterprise Contractor) | Total IT Global | Sydney Jul 2025 – Present
Deployed across multiple enterprise client sites in Sydney, providing on-site IT field support and end-user computing services.

Client: CHEP — Brambles (Global Supply Chain) | Macquarie Park, Sydney | July 2025 – Dec 2025 (6 months)

- Delivered comprehensive desktop support for 100+ end users across CHEP's Macquarie Park headquarters including hardware provisioning, device replacement, and secure decommissioning.
- Performed physical server moves and enterprise infrastructure relocation activities as part of a large-scale hardware refresh project.
- Assisted with Windows Autopilot and Microsoft Intune device enrolment, provisioning, and configuration.
- Provided end-user onboarding support including profile setup, application access, and VPN connectivity troubleshooting.
- Logged and managed incidents via ServiceNow; maintained detailed handover documentation and coordinated courier dispatch throughout the project.
- Performed basic network troubleshooting including IP addressing, DNS, and connectivity issues, escalating complex faults to L3 teams.

Client: DIAGEO — Global Beverages Leader | Sydney CBD | 2026 (1+ month)

- Provided on-site desktop support including hardware break/fix, peripheral installation, and software troubleshooting across Windows 10/11 environments.

- Supported Microsoft 365 administration tasks including mailbox setup, Teams configuration, and SharePoint access management.
- Managed Active Directory tasks: user account creation, password resets, security group updates, and access permission management.
- Logged and tracked service requests via ITSM tools in accordance with ITIL-aligned SLA requirements.

Client: Corteva Agriscience — Global AgTech Leader | Chatswood, Sydney | 2026 (1+ month)

- Conducted structured knowledge transfer sessions with local IT teams to support operational continuity during IT transitions.
- Assisted with enterprise hardware support, device management, and IT infrastructure coordination.
- Documented technical procedures and handover notes to ensure seamless transition of IT responsibilities.
- Supported end users with Microsoft 365 applications, VPN connectivity, and peripheral troubleshooting.

Client: PERRIGO — Global Healthcare Company | Sydney | 2026 (1+ month)

- Delivered Level 1/2 desktop support for end users across Windows 10/11 and Microsoft 365 environments.
- Performed IMACD activities including device installs, moves, adds, changes, and decommissioning of end-user equipment.
- Supported Azure AD onboarding/offboarding workflows, MFA setup, and Intune device enrolment.
- Coordinated with the Service Desk and L3 teams for incident escalation, root cause analysis, and resolution documentation.

Client: AMD — Global Semiconductor Leader | Sydney | 2026 (1+ month)

- Provided on-site hardware and software support for engineering and corporate end users in a fast-paced technology environment.
- Managed device provisioning, OS deployment, and configuration using Windows Autopilot and Microsoft Intune.
- Supported AV and conferencing systems including Teams Rooms, projectors, and video conferencing equipment.
- Maintained IT asset inventory records and ensured lifecycle compliance documentation was kept up to date.

Client: Thomson Reuters — Global Information Services | Sydney | 2026 (1+ month)

- Delivered desktop support services across Thomson Reuters' Sydney office including break/fix, hardware moves, and application support.
- Managed incident logging, prioritisation, and resolution tracking via ServiceNow in alignment with strict SLA targets.
- Supported Microsoft 365 administration including Exchange Online mailboxes, Teams, and OneDrive access management.
- Assisted with network printer installation, firmware updates, and connectivity troubleshooting.
- Provided after-hours and on-call on-site support as required to maintain business continuity.

ADDITIONAL EXPERIENCE

IT Support Specialist | Cloud Stream | Sydney Jan 2023 – Jun 2025

- Logged and managed incidents and service requests using ITSM tools with SLA tracking and prioritisation.
- Provided IT support for network and computer systems including hardware, software, and network troubleshooting.
- Performed regular data backups, file recovery, and system monitoring for early issue detection.
- Managed Active Directory administration, Group Policy deployment, and access permission management.
- Deployed and supported enterprise applications via Microsoft Intune; maintained SOE compliance standards.
- Designed, implemented, and maintained upgraded network infrastructure and integrated new systems into existing environments.
