EUC & Collaboration: IMACD, Device Lifecycle Management, Teams Rooms, AV Systems, Meeting-Room Support

Professional Skills: Stakeholder Communication, Customer Service, Problem Solving, Time Management, Multi-Client Coordination, Technical Documentation

PROFESSIONAL EXPERIENCE

IT Support Engineer | Teva Pharmaceuticals

Sydney, NSW | Jul 2026 – Present

On-site IT support and desktop administration for a global pharmaceutical operation, covering end-user computing, privileged access and regulated-environment device compliance.

- **Resolve incidents and service requests** via ServiceNow, consistently meeting SLA targets and maintaining detailed resolution and handover documentation.
- **Support Microsoft 365, Active Directory and Entra ID** for end users, covering account administration, group membership, MFA enrolment and access permissions.
- **Provision and configure devices** through Windows Autopilot and Microsoft Intune, including enrolment, policy assignment and application deployment.
- **Maintain IT asset lifecycle records** for laptops, monitors, docks and peripherals across ServiceNow CMDB and ensuring inventory accuracy.
- **Deliver end-user onboarding** including profile setup, application access, VPN connectivity and first-day device handover.
- **Troubleshoot hardware, software, peripherals and network connectivity** across Windows and macOS endpoints, escalating to Level 3 where required.
- **Produce technical documentation and knowledge-base articles** to support repeatable resolutions and reduce recurring ticket volume.

Desktop Support Engineer (Enterprise Client Sites) | JLL | CHEP/Brambles | Diageo | Corteva Agriscience | Perrigo | AMD | Thomson Reuters

Sydney, NSW | Jul 2025 – Jun 2026

Delivered on-site desktop and end-user computing support across multiple enterprise client sites, supporting 100+ end users per engagement across hardware, software, network services and privileged access.

- **Administered Privileged Access Management** requests via CyberArk and PAM360, provisioning, revoking and auditing privileged credentials against client security policy.
- **Managed incident and service request resolution** through ServiceNow and ConnectWise, maintaining SLA compliance and detailed handover documentation across concurrent client sites.
- **Delivered full desktop support** including hardware provisioning, device replacement, secure decommissioning and data-sanitised asset disposal.
- **Executed physical server moves** and enterprise infrastructure relocation as part of a large-scale hardware refresh project.
- **Performed Windows Autopilot and Microsoft Intune enrolment**, provisioning and configuration across enterprise Windows 10/11 fleets.
- **Maintained asset lifecycle records** for laptops, monitors, docks and peripherals across ServiceNow CMDB and Asset DNA.
- **Supported user onboarding** with profile setup, application access, VPN connectivity troubleshooting and network configuration.
- **Troubleshoot meeting-room technology** including Teams Rooms, AV systems, conferencing peripherals and network printers.
- **Produced technical documentation** and supported knowledge-transfer activities during client transitions and site handovers.
- **Coordinated courier dispatch and device logistics** across multi-site deployments, tracking chain of custody end to end.

IT Support Specialist | Cloud Stream

Sydney, NSW | Jan 2023 – Jun 2025

- **Provided Level 1/2 support** for hardware, software, account access, Microsoft 365 and network connectivity issues.
- **Administered Active Directory** accounts, security groups, password resets and access permissions.
- **Deployed applications and managed Windows endpoints** through Microsoft Intune.
- **Supported Group Policy** and standard operating environment compliance alongside endpoint security requirements.
- **Documented incidents**, troubleshooting actions and resolutions through ITSM systems.
- **Assisted with network upgrades**, device deployments and integration of new systems into existing environments.
